PROFESSIONAL SUMMARY

Full Stack Developer with a BSCS degree and a 5-month web development internship, experienced in building responsive web applications with React.js, Tailwind CSS, Node.js, Express.js, and MySQL. Delivered five full stack and front-end projects, four of them deployed live on Vercel, including a Logistics Management System, a Healthcare System, a TechSphere Solutions website, and a personal portfolio. Strong in RESTful API development, database design, CRUD operations, authentication, Git, and debugging. Seeking a Junior Full Stack Developer, React Developer, or Web Developer role.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Authentication, MVC Architecture

Database: MySQL, SQL Queries, Database Design, CRUD Operations, XAMPP

Tools & Platforms: Git, GitHub, Vercel, VS Code, Postman, npm, Antigravity

AI-Assisted Development: Gemini, Claude, DeepSeek (code generation, debugging, documentation)

Core Concepts: Component-Based Architecture, State Management, API Integration, Debugging, Problem Solving

PROFESSIONAL EXPERIENCE

Web Development Intern

Bits Phile (Pvt), Jauharabad, Khushab | 5 Months

- Built full stack web applications using HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, and MySQL.
- Developed responsive, reusable React.js components and user interfaces styled with CSS and Tailwind CSS.
- Built and tested RESTful APIs with Node.js and Express.js and connected them to MySQL databases for data storage and retrieval.
- Implemented CRUD operations, form handling, and client-server communication between front-end and back-end.
- Used Git and GitHub for version control and followed clean-code practices while debugging and fixing issues.
- Collaborated with team members, followed project requirements, and completed assigned tasks within deadlines.

PROJECTS

Portfolio Website (Full Stack)

Tech Stack: React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MySQL

Live Demo: https://hassan-akbar-portfolio-project.vercel.app

GitHub: https://github.com/hassanakbar-dev/Hassan-Akbar-Portfolio-project

- Developed a full stack personal portfolio web application to showcase projects, skills, and contact details.
- Built a responsive interface with React.js and Tailwind CSS, with Node.js, Express.js, and MySQL on the back end.
- Hosted the source code on GitHub and deployed the application on Vercel.

Logistics Management System

Tech Stack: React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MySQL

Live Demo: https://logistics-management-system-lxqp.vercel.app/

- Developed a full stack web application to manage logistics operations such as shipments, orders, and records.
- Built a responsive front-end with React.js and Tailwind CSS for smooth use on desktop and mobile devices.
- Designed RESTful APIs with Node.js and Express.js to handle data operations and business logic.
- Structured a MySQL database and implemented create, read, update, and delete (CRUD) functionality.
- Integrated front-end and back-end services using API calls with error handling and input validation.

Healthcare System

Tech Stack: React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MySQL

Live Demo: https://healthcare-system-eta-liart.vercel.app/

- Developed a full stack healthcare management web application to manage patient and appointment information.
- Built a responsive, user-friendly interface with React.js and Tailwind CSS.
- Created RESTful APIs with Node.js and Express.js and stored application data in a MySQL database.
- Implemented CRUD operations, form handling, and input validation, and deployed the application on Vercel.

TechSphere Solutions
Tech Stack: React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MySQL

Live Demo: https://techsphere-solutions.vercel.app/

- Built a full stack web application for a software solutions company to present services and manage content.
- Created a clean, responsive, user-friendly interface using React.js, HTML5, CSS3, and Tailwind CSS.
- Developed back-end endpoints with Node.js and Express.js and stored application data in MySQL.
- Applied reusable component design and organized, maintainable code across front end and back end.

Movie Search App
Tech Stack: React.js, JavaScript (ES6+), HTML5, CSS3

- Developed a React.js application that lets users search for movies and view details in real time.
- Integrated a third-party movie API using asynchronous JavaScript (fetch, async/await) to retrieve and display data.
- Used React hooks and state management to handle search input, results, and loading and error states.
- Designed a responsive layout that works across screen sizes.

EDUCATION

Bachelor of Science in Computer Science (BSCS)
University of Sargodha, Pakistan

Intermediate in Computer Science (ICS)
Superior College, Jauharabad, Pakistan

CERTIFICATIONS

- Responsive Web Design – freeCodeCamp
- React Basics – Meta (Coursera)

LANGUAGES

English, Urdu
